1. Referenced memorandum requests procurement action for a C-54 IP for []. The target date for EOD of the IP [] is given as 10 February 1962.

2. This is to advise you that, if we are forced to rely on a new USAF nominee to fill this position, the earliest ETA we can hope for is about 1 May 1962 and the ETA could easily be later.

3. There is a way in which we could meet the required EOD date, however. The [] equipped with C-54 aircraft which has several excellent C-54 IP's on its roster. One of these individuals could conceivably be transferred to fill your requirement. [] sees no real security problem in such an assignment.

4. Before we had a firm target date for the arrival of the C-54 [] Colonel Beerli was approached concerning the transfer of a Detachment 1, C-54 pilot [] and expressed reluctance to follow this course of action.

5. If the 15 February date is a firm requirement, it is suggested that Colonel Beerli again be approached on this subject as being the only way in which the PCS assignment of a C-54 IP can be effected within the time limit imposed upon us.

6. An obvious alternative would be to TDY a Headquarters C-54 IP [] for a sufficient period of time to allow expedite recruitment from the USAF to take its course.

7. For your information, a recruitment request has been forwarded to HRPD with expedite action requested.
